Autumn Planting Time Has Come
AND HERE ARE SOME SUGGESTIONS

October and November are ideal months for planting many kinds of trees, shrubs, vines, and hardy plants.

After the frosts of early October, the sap stops flowing and the plants are dormant. They can be safely transplanted in this condition without danger of flagging and will commence growing earlier next spring than similar plants set out then.

The autumn days are pleasurable to work in, the weather is less changeable and freaky than in spring; and, as a rule, the ground is warm and mellow, not cold and wet as so often it is in April.

Deciduous trees, shrubs, and vines can be safely planted as long as the ground is open. In Maine the soil usually freezes in early November; in Massachusetts about the 10th of December; and in Pennsylvania and states further south, not until considerably later in the month, as a general rule. This permits planting in the Northeastern States throughout October and November.

Bay State

Nurseries

North Abington :: Massachusetts

Grape-Vines

This is the ideal season to plant Grapes, whether just one or two vines to cover a fence, or enough to plant a larger vineyard. We have a supply of splendid vines, full of vigor and eager to grow off next spring, provided they are planted now.

Blue Varieties: Campbell’s Early, Concord, and Worden.
Red Varieties: Catawba, Salem, and Delaware.
White Varieties: Moore’s Diamond, and Niagara.

3-yr.-old, strong plants, 60c. each; 5 or more of one kind, 50c. each
4-yr.-old, extra-strong plants, 90c. each; 5 or more of one kind, 75c. each

Hardy Plants for Hedges

Deciduous trees, shrubs, and vines can be safely planted as long as the ground is open. In Maine the soil usually freezes in early November; in Massachusetts about the 10th of December; and in Pennsylvania and states further south, not until considerably later in the month, as a general rule. This permits planting in the Northeastern States throughout October and November.

Japanese Barberry

(Berberis thunbergii)
The finest hedge plant for New England and other northern states. Hardy, graceful, and especially attractive in fall and winter with its bright fruit. Bushy.

FLOWERING SHRUBS

Are you satisfied with the appearance of the grounds about your home? Are there spots where a few shrubs would—

- Soften a rough and unattractive corner?
- Give more privacy to your garden?
- Hide ugly spots?

Flowering shrubs provide beauty the year round. By all means plant them now; they will give them a good start for next season. If this is done, many of the early-flowers will bloom next spring. Otherwise they will be delayed one year.

Of the large variety of shrubs we grow, only a few are mentioned in this leaflet. If you are interested in others, consult our handbook or write us for quotations. We believe it is unnecessary to state that our shrubs are well grown, of good immediate planting, and that we can pack them so expertly that they can be shipped to any state or province if you wish to have them do so.

CLIMBING ROSES

Remember how pretty the Climbing Roses were the past summer? They are the easiest things in the world to grow, and a few planted now will give flowers for years to come. If you are interested in a more complete list, refer to our descriptive catalogue.

American Pillar. Vigorous, hardy growth. Single, brilliant yellow color. Flowers in great abundance. 75 cts. each; 5 or more, 50 cts. each.

Avanture Bicolore. Moderate growth. Single, yellow flowers; foliage green. 50 cts. each; 5 or more, 40 cts. each.

Dorothy Perkins. Vigorous grower, fine for fences and arbors. Sprays of bright shell-pink, little, crinkly flowers. 75 cts. each; 5 or more, 50 cts. each.

Enchantress. Like Dorothy Perkins but its flowers are vivid, light crimson. 75 cts. each; 5 or more, 60 cts. each.

Mary Lovett. Very strong growth and glossy foliage. Flowers beautifully formed, white, and very large. 85 cts. each; 5 or more, 60 cts. each.

Silver Moon. Very vigorous, but needs protection where winters are severe. Flowers enormous pure, creamy white. 75 cts. each; 5 or more, 60 cts. each.

**FLOWERING SHRUBS**

- **BORDER FORSYTHIA** (Forsythia intermedia). The brilliant yellow color is a feature of spring. Very graceful and fragrant. Strong plants, 2 years old, at $1 each for less than 5 of one kind; 5 or more of one kind at $9 for 10, unless otherwise advised.

- **COMMON LILAC** (Syringa vulgaris). Lilies need no description. Evergreen flowers, larger and more fragrant than ever before. 2 to 3 ft. 75 cts. each; 5 or more, 60 cts. each. 3 to 4 ft. $1.25 each; 5 or more, $1.00 each.

- **COMMUNILILAC** (Syringa vulgaris). Like the Common Lilac, but flowers larger and more fragrant. 2 to 3 ft. 75 cts. each; 5 or more, 60 cts. each. 3 to 4 ft. $1.25 each; 5 or more, $1.00 each.

- **COMMON SWEET SHRUB** (Calycanthus floridus). Aromatic foliage and flowers. Very useful and effective. 4 ft. 60 cts. each; 5 or more, 45 cts. each.

- **GLOBE FLOWER** (Achillea millefolium). Tall, erect shrub with stiff green stems. Throughout the entire season it is covered with bright golden yellow, chrysanthemum-like flowers. Very useful and effective. 2 to 3 ft. 90 cts. each; 5 or more, 80 cts. each.

- **HISEDGE PEEGEE** (Hydrangea paniculata grandiflora). Very popular because of its enormous bunch of crimson flowers which open after flowering. Widely used for hedges, border planting and for specimens. 2 to 3 ft. 75 cts. each; 5 or more, 60 cts. each. 3 to 4 ft. $1.25 each; 5 or more, $1.00 each.

- **RED-OSIER DOGWOOD** (Cornus sericea). The finest of the more popular Mock Oranges. A large, showy shrub which bears large, clustered flowers in early June. The plant is shapely and the foliage is always attractive throughout the season. Useful for massed planting along drives or on banks. 3 to 4 ft. 75 cts. each; 5 or more, 60 cts. each.

- **SPIRELA ERECT** (Spiraea japonica). A large, showy shrub which bears large, clustered flowers in early June. The plant is shapely and the foliage is always attractive throughout the season. *x*x*

- **SPIRELA PEREGRINA** (Spiraea peregrina). A spreading, slender, twiggy shrub which bears large, clustered flowers in early June. The plant is shapely and the foliage is always attractive throughout the season. Useful for massed planting along drives or on banks. 4 to 5 ft. 75 cts. each; 5 or more, 60 cts. each.

**WHITFIELD ROSES**

- **VIRGINAL HYDRANGEA** (Hydrangea paniculata grandiflora). Very popular because of its enormous bunch of crimson flowers which open after flowering. Widely used for hedges, border planting and for specimens. 2 to 3 ft. 75 cts. each; 5 or more, 60 cts. each. 3 to 4 ft. $1.25 each; 5 or more, $1.00 each.

**WHITE BUSH ROSES**

- **AMERICAN PILLE**. Vigorous, hardy growth. Single, brilliant pink flowers in giant clusters. 75 cts. each; 5 or more, 60 cts. each.

- **AVANTURE BICOLORE**. Moderate growth. Beautiful foliage. Both orange and apricot; flowers lighter. 50 cts. each; 5 or more, 40 cts. each.

- **DOROTHY PERKINS**. Vigorous grower, fine for fences and arbors. Sprays of bright shell-pink, little, crinkly flowers. 75 cts. each; 5 or more, 60 cts. each.

- **ENSEMBLE**. Like Dorothy Perkins but its flowers are vivid, light crimson. 75 cts. each; 5 or more, 60 cts. each.

- **MARY LOVET**. Very strong growth and glossy foliage. Flowers beautifully formed, white, and very large. 85 cts. each; 5 or more, 60 cts. each.

- **PAUL'S SCARLET CLIMBER**. Moderate grower, with scented, midsummer-colored flowers, nicely adapted for vertical ike strawberry bushes. An old favorite. 3 to 4 ft. 75 cts. each; 5 or more, 60 cts. each.

- **ROWLAND'S COBINESTER** (Cotoneaster simonsii). A spreading, slender, twiggy shrub which bears large, clustered flowers in early June. The plant is shapely and the foliage is always attractive throughout the season. Useful for massed planting along drives or on banks. 3 to 4 ft. 75 cts. each; 5 or more, 60 cts. each.

- **SOPHIE SPIRELLA** (Spiraea peregrina). A spreading, slender, twiggy shrub which bears large, clustered flowers in early June. The plant is shapely and the foliage is always attractive throughout the season. Useful for massed planting along drives or on banks. 3 to 4 ft. 75 cts. each; 5 or more, 60 cts. each.

- **VIRGINAL HYDRANGEA** (Hydrangea paniculata grandiflora). Very popular because of its enormous bunch of crimson flowers which open after flowering. Widely used for hedges, border planting and for specimens. 2 to 3 ft. 75 cts. each; 5 or more, 60 cts. each. 3 to 4 ft. $1.25 each; 5 or more, $1.00 each.

- **VIRGINAL HYDRANGEA** (Hydrangea paniculata grandiflora). Very popular because of its enormous bunch of crimson flowers which open after flowering. Widely used for hedges, border planting and for specimens. 2 to 3 ft. 75 cts. each; 5 or more, 60 cts. each. 3 to 4 ft. $1.25 each; 5 or more, $1.00 each.

- **VIRGINAL HYDRANGEA** (Hydrangea paniculata grandiflora). Very popular because of its enormous bunch of crimson flowers which open after flowering. Widely used for hedges, border planting and for specimens. 2 to 3 ft. 75 cts. each; 5 or more, 60 cts. each. 3 to 4 ft. $1.25 each; 5 or more, $1.00 each.

- **VIRGINAL HYDRANGEA** (Hydrangea paniculata grandiflora). Very popular because of its enormous bunch of crimson flowers which open after flowering. Widely used for hedges, border planting and for specimens. 2 to 3 ft. 75 cts. each; 5 or more, 60 cts. each. 3 to 4 ft. $1.25 each; 5 or more, $1.00 each.

PEONIES

Autumn is absolutely the correct time to put Peonies in the ground; and a garden doesn't amount to much unless there are a few of these gorgeous perennial beauties in it. They are practically indestructible when once established, and surpass all other flowers in splendor when they are in bloom.

**Festiva Maxima.** An old, tried, true, and favorite variety. Very large, pure white blooms, flaked lightly with crimson and delicately fragrant. 75 cts. each; $6.50 for 10.

**Karl Rosenfield.** The finest of the popular-priced reds. A very handsome, symmetrical, upstanding flower of brilliant crimson. $1.50 each; $14 for 10.

**Mary Brand.** Another fine red Peony of enormous size and excellent form. The color is vivid crimson. $2.50 each; $24 for 10.

**Mikado.** A brilliant showy sort of the Japanese type. Guard petals bright crimson; center a tuft of shredded petals strongly tinged with yellow. $2.50 each; $22.50 for 10.

**Sarah Bernhardt.** One of the largest and handsomest. Dark, brilliant pink, of exceptionally handsome form. Unequaled for cutting. $1.75 each; $16 for 10.

**Therese.** The most popular of all Peonies. Delicately pink and crisply fresh flowers of lovely shape. $3.50 each; $33 for 10.

**Tourangelle.** Medium-sized, creamy pink flowers with a warmer tone in the center. Very lovely. $3 each.

SHADE AND ORNAMENTAL TREES

Your children and grandchildren will need trees, and bless you for planting them—besides most of them grow so rapidly that you can enjoy them yourself if you are less than eighty.

It is well to think of the future, by planting trees that will shade your home and give your grounds an air of permanence and comfort. Nearly all ornamental trees may be planted during the next two months. We recommend the following:

**Norway Maple (Acer platanoides).** Large, handsome trees, especially adapted to street planting and in small back yards where there is no garden. Also fine on the seashore. Makes dense shade.

- 6 to 8 ft. $2.75 each; 5 or more, $2.50 each
- 8 to 10 ft. $4 each; 5 or more, $3.75 each
- 10 to 12 ft. $5 each; 5 or more, $4.80 each

**European Mountain-Ash (Sorbus aucuparia).** One of the prettiest lawn trees. The foliage is feathery and attractive and the clusters of brilliant red berries are very showy.

- 5 to 6 ft. $1.50 each; 5 or more, $1.25 each
- 6 to 8 ft. $2 each; 5 or more, $1.80 each
- 8 to 10 ft. $2.50 each

**American Elm (Ulmus americana).** The glory of New England towns. Lofty and spreading in a broad dome of cooling greenness. We are eternally grateful to the ancestors who planted them.

- 6 to 8 ft. $2 each; 5 or more, $1.80 each
- 8 to 10 ft. $2.75 each; 5 or more, $2.50 each
- 10 to 12 ft. $4 each; 5 or more, $3.50 each

We have a moderate number of American Elms of the type known as "vase-shaped," especially prized for their beautiful form, as the name would indicate. We have excellent trees to offer at the following prices:

- 6 to 8 ft. $1 each; 5 or more, $2.70 each
- 8 to 10 ft. $3.75 each; 5 or more, $3.50 each
- 10 to 12 ft. $5 each; 5 or more, $4.80 each

**Flowering Crab-Apples.** Any of the Flowering Crab-Apples may be transplanted now, and we call your attention to two varieties in particular, Bechtel's Crab (Malus ioensis plena) and Japanese Flowering Crab (Malus floribunda). The prices for both varieties are as follows:

<table>
<thead>
<tr>
